### ROOF INFORMATION

|                  |                                  |
|------------------|----------------------------------|
| ROOF TYPE        | Low-slope membrane               |
| ROOF SYSTEM      | Unknown membrane                 |
| POSSIBLE TYPES   | -                                |
| VISIBLE CONCERNS | None prominent from aerial image |
| ROOF AGE EST.    | 47 years                         |
| ROOF AREA        | 81,994 SF                        |
| ROOF PITCH       | Low slope                        |
| CONFIDENCE       | Pending AI                       |

SELECTED AERIAL IMAGE - AERIAL IMAGERY AS OF 03/11/2018 - 03/17/2018

### ROOF CONDITION BREAKDOWN

|                     |                        |        |
|---------------------|------------------------|--------|
| Membrane Condition  | <div><div></div></div> | 61/100 |
| Ponding             | <div><div></div></div> | 49/100 |
| Flashing & Seals    | <div><div></div></div> | 53/100 |
| Penetrations        | <div><div></div></div> | 59/100 |
| Overall Maintenance | <div><div></div></div> | 61/100 |

### AERIAL ROOF OBSERVATIONS

- Aerial imagery is available, but AI analysis was not run for this report.
- Large low-slope roof area should be reviewed for membrane wear, drainage, staining, and penetration condition.
- Use the selected aerial image as the primary visual reference for field validation.

### BUILDING CHARACTERISTICS

|                   |                |
|-------------------|----------------|
| LAND AREA         | 4.58 acres     |
| STORIES           | 1              |
| CONSTRUCTION TYPE | 398: WAREHOUSE |
| TAX DISTRICT      | DENV           |
| LAND VALUE        | \$7,365,500    |

### REPORT SUMMARY

This preliminary report was generated from parcel/building data and aerial imagery. AI roof observations were not requested or no API key was available, so condition values are conservative placeholders for layout and workflow validation.

#### Recommendation:

Run AI image analysis and perform field inspection before final assessment.

### ROOF REPLACEMENT COST ESTIMATE

| TOTAL PROJECT COST | COST COMPONENT              | COST               |
|--------------------|-----------------------------|--------------------|
| <b>\$2,310,181</b> | Tear Off & Disposal         | \$281,239          |
| \$24.50 / SF       | Roof Membrane               | \$562,479          |
|                    | Insulation                  | \$341,505          |
|                    | Flashing/Edging             | \$220,974          |
|                    | Labor                       | \$602,656          |
|                    | <b>Replacement Subtotal</b> | <b>\$2,008,853</b> |
|                    | <b>Contingency (15%)</b>    | <b>\$301,328</b>   |
|                    | <b>Total Project Cost</b>   | <b>\$2,310,181</b> |

This replacement cost is an estimate derived from aerial imagery, public property records, and commercial roofing cost models. It is intended for budgeting purposes only and should not be considered a contractor quote or engineering assessment.

### ROOF OVERLAY COST ESTIMATE

| TOTAL PROJECT COST | COST COMPONENT            | COST             |
|--------------------|---------------------------|------------------|
| <b>\$879,386</b>   | <b>Overlay Subtotal</b>   | <b>\$799,442</b> |
| \$9.75 / SF        | <b>Contingency (10%)</b>  | <b>\$79,944</b>  |
|                    | <b>Total Project Cost</b> | <b>\$879,386</b> |

This overlay cost is an estimate derived from aerial imagery, public property records, and commercial roofing cost models. It is intended for budgeting purposes only and should not be considered a contractor quote or engineering assessment.
